

# Charles Clinton Pustejovsky III

## EXPERIENCE

### **KyckGlobal, Atlanta, GA** – *Back-End Developer*

NOVEMBER 2020 - PRESENT

Established the use of best practices for idiomatic Go and Test Driven Development to decrease technical debt of new initiatives using Go.

Helped with refactoring our API from JavaScript to TypeScript and switching from callbacks to `async/await`.

Diagnosed API's unreliable payment handling and refactored code to asynchronously handle payments and log in-depth information for further refactoring and fixes.

Audited DynamoDB database, added global secondary indexes, and refactored database connections to allow service to scale up to meet new demands.

Wrote and executed a script to upload tax information for payees in our system.

Refactored API to block payments from prohibited countries

Refactored Bulk Payee Upload with correct error handling

### **DecisionIQ, Atlanta, GA** – *Front-End Developer, Short-Term Contract*

JUNE 2020 - AUGUST 2020

Helped build component to display hierarchical data as Miller columns which provided users with a cleaner and clearer UI

Rebuilt tables, and forms to better display data and provide user feedback.

### **BitPay, Atlanta, GA** – *Content Specialist/ Marketing Developer*

APRIL 2017 - APRIL 2020

Created a headless CMS for blog and press on Nuxt.js site which reduced time spent updating content and distractions for developers

Wrote jQuery script to make marketing's landing pages comply with GDPR.

Wrote a web scraping script to show marketing best performing blog categories.

## EDUCATION

### **Bachelor of Arts, Major: History | Minor: Classics (2014)**

University of Houston - Houston, TX

Planned, researched, and wrote an 80 page undergraduate thesis

## TECHNICAL SKILLS

### Languages

Go, TypeScript, NodeJS

### Databases

SQL, DynamoDB, MongoDB

### Tools

Docker, Git, GitHub, JIRA, Bitbucket, DataDog, Kibana, Swagger, VS Code,

## PERSONAL PROJECTS

### Estuary

A productivity web application I'm rebuilding with React (TypeScript) and Go.

### Twitter Golang Bot

Bot written in Go to automate some of my Twitter activity
